

# Updates on Wound Care Regulations in Long-Term Care

## Live and On Demand Access

The webinar will be recorded. All participants registered **prior** to the live webinar will have access to both the live and recorded webinar. Participants registered **after** the live webinar will have access to the recorded version.

## Webinar Description

October 1st, 2023 brought about some wound-care regulatory changes. What are the changes, and how do they impact the coding of Section M of the MDS? What ICD-10 codes are appropriate? How should the new changes be implemented, coded, and captured? This webinar will cover the changes specific to wound care, designed to keep you updated on the most recent changes and best practice principles. There will also be a review of current literature on end-of-life wounds and how end-of-life wounds should be documented and noted.

## Live Webinar Schedule

**April 4, 2024**

**10:00 AM – 11:00 AM**
